

# XMM Legacy Program

Ideas discussed in the AP Meeting

# HESS DEEP SURVEY / GASKAP PILOT

HESS SkyMap (to be covered by GASKAP PILOT)

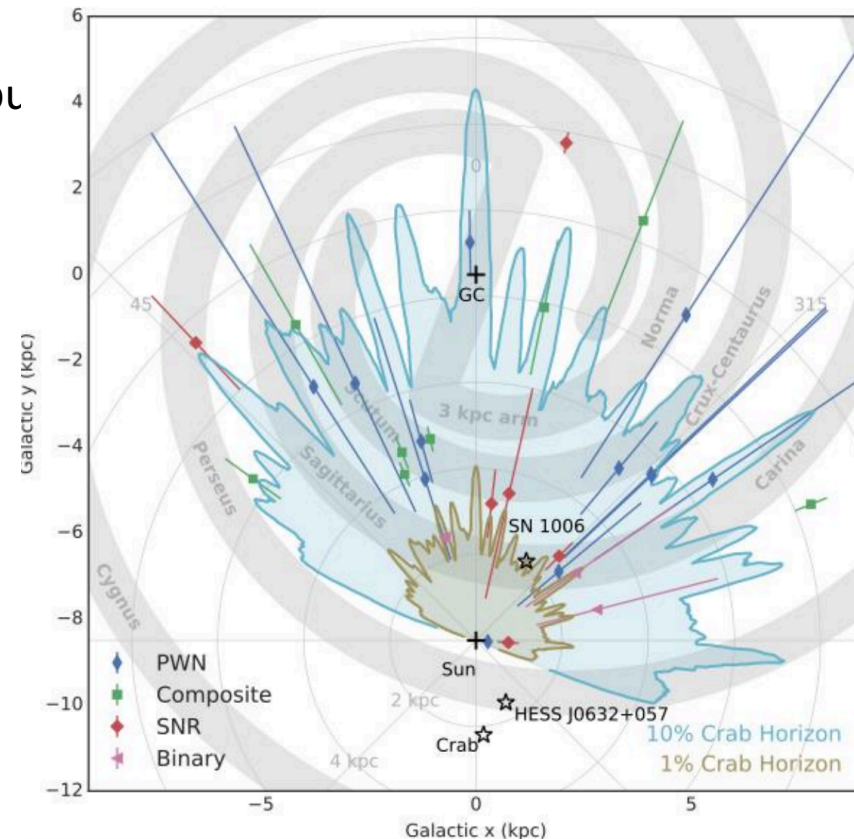

# HESS DEEP SURVEY / GASKAP PILOT

Scientific goals:

\* The TEV Galactic Population

The region includes Pulsars, SNRs, Unidentified, Stellar Clusters and PWNe

- The CR/ISM interplay
- A Deep Observation of the Near-Norma arm Output
- Output: Deep Survey

# Large survey of the Geminga Region

Scientific goals:

- Halo-like particles around nearby PSR – The Geminga nebula
- Implication on the electron CRs
- Output for the astrophysics community (?) The anticenter ?

# Following up on Unidentified Sources

Scientific goals:

- Unveiling TeV accelerators
- New sources?
- Output for the astrophysics community (?)
